EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This Office Action is responsive to Applicant's Amendment filed on 03/01/05. Claims 1-19 have been canceled, and claims 28, 33 and 42 have been amended accordingly.
2. Claims 20-51 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

Examiner agrees with Applicant's arguments regarding claim 20. Claim 28 was indicated allowable and has been rewritten in independent form including all of the limitations of the base claim 20. Claims 38-51 were indicated allowable.

The prior art of record does not disclose or render obvious a motivation to provide for an interaxle drive system for delivering power to front and rear drive axles of a vehicle as defined by the limitations of claims 20, 28 and 38, including a transfer case having a housing, a planetary gear unit for delivering power from an input drive shaft to the front and rear output drive shafts at different speed ratios and having planet gears interconnected with sun and ring gears, a single-pinion differential gear unit for unequally dividing drive torque between the front and rear output drive shafts and having pinion gears interconnected with internal and external tooth side gears, a common carrier mounting both the planet gears and the pinion gears and being mounted for rotation on a bearing supported by the transfer case housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
